Each fund has a published ESMA risk rating from 1 (lower risk, typically lower rewards) to 7 (higher risk, typically higher rewards). Glidepath strategies change their fund mix as you approach retirement, so they are described by their risk profile instead.

Annual Guarantee on Allianz Strategy Select 75

The Annual Guarantee applies only to the part of your plan invested in Allianz Strategy Select 75. At each policy anniversary, we set a guaranteed value equal to 85% of the value of your units in this fund. If, at the next policy anniversary, the value of your units in this fund is below that guaranteed value, we add units to top it back up to the guaranteed value. The guarantee does not apply to any other fund in your plan. Please see the product brochure for further details.

* Indicative portfolio risk is the allocation-weighted average of the published ESMA ratings of the funds (5.0), rounded to the nearest whole number. It is a guide only. It is not an official ESMA risk rating, and it does not allow for the effect of diversification between funds.

Protected Growth — Actively Managed · 100% of your plan

ISIN LU1462191526 · Risk 5 of 7 · Fund charge 0.25% · SFDR Article 8 · **Annual Guarantee 85%**

Invests in international equities and euro bonds, using a quantitative approach to manage volatility. When markets are volatile, equity and bond exposure are reduced; when they are calmer, exposure is increased. Aims for a return comparable to a mix of 75% international stocks and 25% medium-term euro bonds.

Example returns with the Annual Guarantee

Illustration using the 5 year Select 75 fund return, as of 30/09/2026. This example assumes a return before the fund charge of 6.66% every year.

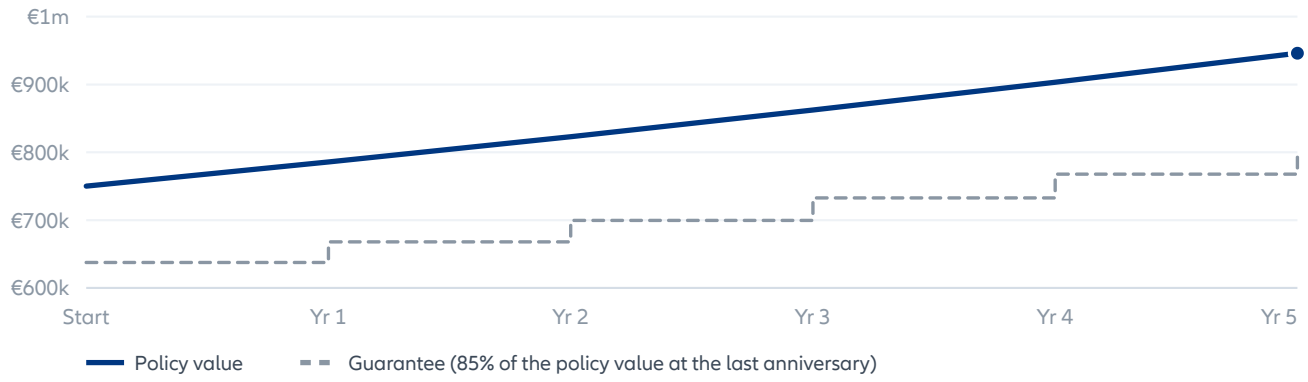

Warning: These figures are examples only and are not a forecast. The actual return on your fund will be different.

Warning: The value of your investment may go down as well as up.

Annual Guarantee: 85% level

On each policy anniversary the guarantee floor is set at **85%** of your policy value. If, a year later, your policy is worth less than that floor, Allianz adds units to bring it back up to the floor. The floor is then reset to 85% of the new policy value, so gains are locked in each year (a ratchet).

† **Deemed disposal:** every 8 years (in this example, year 8), exit tax of 38% on the gain to that date is deducted from the policy value, whether or not you encash. This is why the policy value falls in that year. The tax paid is allowed against the exit tax due when you later encash, so the same gain is not taxed twice.

How these figures are worked out

- Returns are applied evenly through each policy year. The returns shown are before all charges; the fund charge of 0.25% a year, the policy charge and the guarantee charge are then deducted monthly.
- The government levy of 1.00% (€7,500) is deducted when the contribution is invested and is included in the charges to date.
- "Value if encashed" is the value on the policy anniversary after any exit charge and after exit tax of 38.00% on the gain, as if the policy were fully encashed on that date.
- Exit tax is also due every 8 years under the Revenue "deemed disposal" rule, whether or not you encash. It is deducted from the policy and allowed for against tax due on later encashment.
- "Taxation to date" is the tax paid at deemed disposals plus the exit tax that would be due if the policy were encashed on that anniversary. Only the deemed-disposal tax is actually taken from the policy, so the policy value is after that tax but before any exit tax or exit charge.

The Annual Guarantee

- At each policy anniversary a protected value is set at 85% of the value of your units in the fund. If, at the next anniversary, they are worth less than the protected value, Allianz adds units to bring them back up to it. The protected amount is reset each year, based on the policy value at the policy anniversary.
- The guarantee applies at policy anniversaries only. Any surrender or transfer out is not guaranteed, unless taken exactly at the policy anniversary.
- When active, the death benefit is the maximum of guaranteed value or policy value.

These figures are examples only. The returns are chosen for illustration, are not a forecast, and are not the standard growth rate used on the projection pages. The actual return on your fund will be different.

Warning: These figures are estimates only. They are not a reliable guide to the future performance of your investment.

Warning: The value of your investment may go down as well as up.

Charges

The charges that apply to your plan. All are yearly and taken from the value of your fund.

Fund	Share of plan	Policy charge (incl. trail commission)	Fund charge	Guarantee charge	Total annual charge
Allianz Strategy Select 75	100.0%	0.70%	0.25%	0.85%	1.80%
Your portfolio	**100%**	**0.70%**	**0.25%**	**0.85%**	**1.80%**

Allocation rate and contribution charge

Single contribution	Allocation rate	Amount allocated	Government levy	Amount invested	Contribution charge
€750,000	**101%**	€757,500	–€7,500	**€750,000**	None

The allocation rate is 101%: for every €100 you pay in, €101.00 is allocated to your policy. There is no contribution charge.

Government levy

A government levy of 1.00% applies to every contribution you make, including the single contribution and any regular contributions. This is a tax collected by Allianz Global Life on behalf of the State and is deducted at the time each contribution is invested.

Exit charges

An exit charge applies if you fully encash your Investment Bond in the early years, as shown below. No exit charge applies to the regular, scheduled withdrawals described in this illustration.

Policy year	1	2	3	4+
Exit charge	3.00%	2.00%	1.00%	0.00%

Exit tax

Exit tax of 38.00% applies to this policy, based on an individual policyholder. Tax is due on a chargeable event, including full or partial encashment and the Revenue "deemed disposal" rule, which taxes the gain on your policy every 8 years whether or not you make a withdrawal.

Annual management charge (AMC)

A yearly charge for setting up, managing and servicing your plan. It depends on the product version and the value of your plan. It includes the trail commission paid to your adviser.

Fund management charge

The yearly cost of each fund, set by the investment manager and shown on the fund's factsheet. It varies by fund.

Guarantee charge

Applies only to the part of your plan invested in a fund where you have chosen the Annual Guarantee. It is a percentage of the value of your units in that fund and varies by fund.

Where you have chosen the optional guarantee on a fund, the projections assume the guarantee remains in place throughout. If you switch it off in the future, total charges will be lower than shown.

The illustration uses the current level of fund management charges, which may vary in the future. Further details are available in the Schedule of Fees and Charges.

Warning: If you invest in this product, you may lose some or all of the money you invest.

Remuneration statement

What Allianz Global Life dac pays Sefs Ltd for arranging this plan. These payments are included in the charges.

Initial commission	Trail commission	Total estimated
€15,000	**0.00% a year**	**€15,000**
paid in year 1	of fund value, est. €0 over 20 years	over 20 years

Type	Basis	Amount
Initial – single contribution	2.00% of single contribution	€15,000
Trail	0.00% a year of fund value	€0 projected total over 20 years

Initial remuneration is a once-off payment made when your policy starts. Trail (ongoing) remuneration is paid each year as a percentage of your fund value, so the amount depends on future investment returns.

Projected remuneration by year

Year	Contributions payable in that year	Projected remuneration
1	€750,000	€15,000
2	–	€0
3	–	€0
4	–	€0
5	–	€0
10	–	€0
15	–	€0
20	–	€0

Projected remuneration figures assume the growth rate(s) shown in this illustration and are not guaranteed.

Clawback

Commission clawback applies in full on cool-off (within 30 days of policy inception). An exit charge or clawback schedule may also apply on early encashment, as set out in the Charges section.

The initial remuneration rate shown has been agreed between your adviser and Allianz Global Life and differs from the standard rate for this product.
