## 2. The level of Benefits to be reasonably expected

The value of your Personal Retirement Savings Account (PRSA) assets as shown above if no further contributions are made could be expected under current circumstances to produce an income for life commencing at age 66 of €0 per month in terms of current prices. This is because your plan is about to start.

The value of your PRSA assets as shown above, together with the future contributions which it is assumed you will pay will produce the following benefit:

| Year | Total amount of contributions paid in the future into the PRSA contract up to the relevant date | Projected investment growth to date | Projected PRSA contract value if no account is taken of applicable charges to date | Projected PRSA contract value if account is taken of applicable charges to date |
|---|---|---|---|---|
| | € | € | € | € |
| 1 | 15,439 | 926 | 16,365 | 16,000 |
| 2 | 15,439 | 1,908 | 17,347 | 16,582 |
| 3 | 15,439 | 2,949 | 18,388 | 17,185 |
| 4 | 15,439 | 4,052 | 19,492 | 17,809 |
| 5 | 15,439 | 5,222 | 20,661 | 18,457 |
| 10 | 15,439 | 12,210 | 27,649 | 22,064 |
| Year of Maturity | 15,439 | 15,655 | 31,094 | 23,710 |

**Note:** The projections shown above make no allowance for the effect of inflation, which will reduce the value of the projected benefits. The projected maturity value of €23,710 shown in the table is worth €16,622 in terms of CURRENT PRICES. This maturity value could purchase a retirement income for the rest of your life starting from that date of €66 per month in terms of current prices.

**IMPORTANT**

26/08/2026

**THESE ILLUSTRATIONS ASSUME AN INVESTMENT RETURN BEFORE RETIREMENT OF 5.97% PER ANNUM AND INFLATION OF 3.00% PER ANNUM. THESE RATES ARE FOR ILLUSTRATION PURPOSES ONLY AND ARE NOT GUARANTEED.**

**ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING FUNDS AND MAY BE MORE OR LESS THAN ILLUSTRATED.**

**The assumed investment return shown above is an average rate of return over the term of your plan, taking account of expected changes in the asset mix over time.**

This illustration assumes an investment term in the future of 12 years and 1 months.

The benefits payable will depend on the taxation rules which are described in your Preliminary Disclosure Certificate and Policy Conditions. In particular, if your pension fund grows above the standard fund threshold or if you take a lump sum in excess of the current tax free threshold, tax may be payable. This projection does not allow for this tax.

The income is assumed to be paid monthly in advance, guaranteed for life (minimum 5 years) and is assumed to increase by 2% every year during your lifetime.

Where the term to retirement is greater than five years, the annuity rate used is a long term average rate. Where the term to retirement is less than 5 years current market annuity rates have been used to calculate retirement benefits. The actual annuity rate available at retirement may differ from the annuity rate used in the illustration. Furthermore, different annuity options can be chosen at retirement.

If your PRSA is a Vested PRSA the illustration above does not allow for any future withdrawals you may make.

The accrued transfer value of the contract is included in the columns of the Table headed "Projected PRSA contract value if account is taken of applicable charges to date". The Default Investment Strategy (DIS) is not suitable for contributors who want to generate an income for retirement through purchasing an annuity. If you invest in the DIS you will be exposed to investment risks.

## 3. Information on charges

### Contribution Charges:

The contribution charges are set out in the tables below and depend on the type of contribution (single or regular) and the size of the contribution.

No contribution charge will apply on transfers from other pension arrangements:

Single Contribution Charges:

| Single contribution | Contribution Charge |
|---|---|
| Below €10,000 | 2.0% |
| €10,000 and over | 0.0% |

Regular Contribution Charges:

| Regular contribution | Contribution Charge |
|---|---|
| Below €100 | 2.0% |
| €100 and over | 0.0% |

### Fund-based charges:

An Annual Management Charge (AMC) of 1.15% and a Fund Management Charge (FMC), which varies by fund, are applied to your PRSA. In addition, where applicable, a guarantee charge will apply.

The charges are deducted on a monthly basis either directly from your PRSA or indirectly from the funds in which your PRSA is Invested.

You have chosen to invest in the following funds: Allianz Strategy Select 75 .You have also chosen to include the guarantee on some of these funds where available. As a result, while invested in this investment strategy (and thereafter if you choose to remain within those funds post-retirement) the guarantee and guarantee charge will apply.

26/08/2026

The funds your policy is invested in, and the total fund based charge applicable for each fund are set out in the table below. The total charge includes the Annual Management Charge, the Fund Management Charge and in the case of the Allianz Strategy Select funds the relevant guarantee charge if selected.

| Fund | Fund based charge – excluding guarantee charge | Guarantee charge | Fund based charge – including guarantee charge |
|---|---|---|---|
| Allianz Strategy Select 75 | 1.40% | 0.85% | 2.25% |

26/08/2026

**Effect of charges:**

For your contract, the total effect of these charges on the benefits at maturity projected above is equivalent to a single charge of 2.35% per annum of the assets held under the contract.

## 4. Intermediary Remuneration

Illustrative table of Intermediary Remuneration and Sales Remuneration.

| Year | Contributions payable in that year | Projected total intermediary and sales remuneration payable in that year |
|---|---|---|
| | € | € |
| 1 | 15,439 | 811 |
| 2 | 0 | 41 |
| 3 | 0 | 42 |
| 4 | 0 | 44 |
| 5 | 0 | 45 |
| 10 | 0 | 54 |
| Maturity | 0 | 5 |

This remuneration is paid for by us from the charges we make on your contract.

## 5. Warnings

The level of contributions, projected benefits and intermediary remuneration may be substantially different from the Preliminary Disclosure Certificate you have previously received. If you are dissatisfied you have 30 days from being given this document to cancel the contract using the cancellation notice provided with this Statement of Reasonable Projection.

**The value of your assets, and accordingly, the level of your benefits will depend on the value of the underlying investments of the PRSA and the income that they earn. These values are not guaranteed, and may rise and fall from time to time.**

**It is recommended that you seek professional financial advice about the nature of this PRSA before signing the PRSA contract.**

**It is important to make adequate provisions for retirement. This PRSA is intended to provide benefits over the duration of your life from retirement, and it should be viewed as a long-term investment.**

**At the date of this Statement, the State (Contributory) Pension payable under the Social Welfare (Consolidation) Act, 2005, to a single person who is qualified to receive the maximum rate amounts to €15,564 per annum and equates to 30% of the latest yearly figure for gross average earnings as published by the Central Statistics Office for all industrial workers in all industries.**

## 6. Cooling-off period

This contract is not enforceable until a period of 30 days has elapsed from the date on which you are given this Statement of Reasonable Projection and you many cancel this PRSA contract without penalty if you give written notice to this effect in the form set out below within 30 days of receipt of this Statement.
