Dear 1, here's your **Allianz Vantage Non-Standard PRSA (A)** Statement of Reasonable Projection

1. Personal and general policyholder details

Policyholder	**1**
Policy number	**1**
Date of birth	**14/09/1991**
Gender	**Male**
Plan	**Allianz Vantage Non-Standard PRSA (A)**
Investment Strategy	**Default Investment Strategy – Medium risk glidepath**
Name of PRSA provider	**Allianz Global Life dac**
Policy start date	**15/09/2026**
Chosen retirement age of policyholder	**65**
Value of your PRSA assets at date of statement	**Not applicable as the plan is about to commence.**

15/09/2026

2. The level of Benefits to be reasonably expected

The value of your Personal Retirement Savings Account (PRSA) assets as shown above, together with the future contributions you pay will produce the following benefits. This illustration is based on the assumption that you will pay contributions as described in your Preliminary Disclosure Certificate and Policy Conditions.

In particular, if your available fund grows at the assumed glidepath rate (up to 6.00% p.a. at policy start, reducing as retirement approaches) for illustration purposes, the benefits payable will depend on the performance of the underlying funds and may be more or less than illustrated.

Year	Total amount of contributions paid up to the relevant date €	Projected investment growth to date €	Projected PRSA account is worth without applicable charges to date €	Projected PRSA account is worth with applicable charges to date €
Year 1	€111,111	€6,667	€117,778	€115,766
Year 2	€111,111	€13,733	€124,844	€120,617
Year 3	€111,111	€21,224	€132,335	€125,671
Year 4	€111,111	€29,164	€140,275	€130,936
Year 5	€111,111	€37,581	€148,692	€136,422
Year of Maturity	**€111,111**	**€499,450**	**€610,561**	**€349,988**

Note: The projections shown above make no allowance for the effect of inflation, which will reduce the value of the projected benefits at retirement. The projected maturity value of €349,988 in the table is worth **€144,190** in terms of CURRENT PRICES. This maturity value could purchase approximately a retirement income of **€852 per month** in terms of current prices starting from that date, assuming income escalates at 2.00% per annum and is guaranteed for 5 years.

15/09/2026

IMPORTANT

THESE ILLUSTRATIONS ASSUME AN INVESTMENT RETURN BEFORE RETIREMENT OF UP TO 6.00% PER ANNUM (GLIDEPATH, VARYING OVER TIME) AND INFLATION OF 3% PER ANNUM. THESE RATES ARE FOR ILLUSTRATION PURPOSES ONLY AND ARE NOT GUARANTEED.

ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING FUNDS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The assumed investment return shown above is an average rate of return over the term of your plan, taking account of the asset mix over time. This is a long-term average and you should be aware that in practice investment returns will be more variable over the term of the plan.

The benefits payable will depend on the chosen contribution rates which may be deducted either from the premium or the fund.

The income is assumed to be paid monthly in advance, guaranteed for life (minimum 5 years) and assumed to increase by 2.00% every year during your lifetime.

Where the term to retirement is greater than five years, the annuity rate used is a long-term average rate. Where the term to retirement is less than five years, annuity rates available to calculate retirement benefits may differ from this illustration. Furthermore, different annuity options can be chosen at retirement.

The Default Investment Strategy (DIS) is not suitable for contributors who want to generate an income from retirement through purchasing an annuity. If you invest in the DIS you will be exposed to investment risk.

The invested transfer of the contract is included in the columns of the table headed 'Projected PRSA account is worth with applicable charges to date'.

3. Information on charges

Contribution Charges

The contribution charges are set out in the tables below and depend on the type of contribution (single or regular) and the size of the contribution.

No contribution charge will apply on transfers from other pension arrangements.

Single Contribution Charges

Single Contribution	Contribution Charge
Below €10,000	2.00%
€10,000 and over	0.00%

Regular Contribution Charges

Monthly Contribution	Contribution Charge
Below €100/month	2.00%
€100/month and over	0.00%

Fund-based charges

An Annual Management Charge (AMC) of 1.15% and a Fund Management Charge (FMC), which varies by fund, are applied to your PRSA. In addition, a Sales Remuneration charge of 0.75% per annum applies.

The charges are deducted on a monthly basis either directly from your PRSA or indirectly from the funds in which your PRSA invests.

Fund	Fund based charge

Effect of charges

For your contract, the total effect of these charges on the benefits at maturity projected above is equivalent to a single charge of **1.72%** per annum of the assets held under the contract.

15/09/2026

4. Intermediary Remuneration

Illustrative table of Intermediary Remuneration and Sales Remuneration.

Year	Contributions payable in that year €	Projected total intermediary and sales remuneration payable in that year €
Year 1	€111,111	€849
Year 2	–	€885
Year 3	–	€922
Year 4	–	€960
Year 5	–	€1,001
Year of Maturity	**–**	**€2,580**

This remuneration is paid for by us from the charges we make on your contract.

15/09/2026

5. Warnings

The level of contributions, projected benefits and intermediary remuneration shown in the Preliminary Disclosure Certificate you have previously received may be substantially different from this Statement of Reasonable Projection. If you are dissatisfied you have 30 days from being given this document to cancel the contract providing you have given a notice of cancellation by reference to this Statement, and you may request a refund from us for any contributions or transfers made within that period.

The value of your assets, and consequently, the level of your retirement benefits, will depend on the performance of the underlying investment funds and may rise and fall from time to time. These values are not guaranteed.

It is recommended that you should seek independent financial advice about the nature of this product and to make adequate provisions for retirement so that the PRSA is intended to provide benefits for the duration of your life from retirement, and it should be viewed as a long-term investment.

6. Cooling-off period

This contract is not enforceable until a period of 30 days has elapsed from the date you are given this Statement of Reasonable Projection and you may cancel the PRSA contract without penalty if you give written notice within 30 days of receipt of this Statement.
