Mr Jordan Byrne

8 October 2026
Our ref: Q-261008-E3TN

Re: Your Allianz Vantage Investment Bond (K1) quotation

Dear Mr Byrne,

Thank you for the opportunity to discuss your investment plans. As agreed, please find enclosed your personalised quotation for the Allianz Vantage Investment Bond (K1). Our Statement of Suitability explains why we believe this recommendation is suitable for you.

Enclosed:

- Statement of Suitability, setting out our recommendation and the reasons for it
- A one-page summary of your quotation
- Projected benefits, showing how your policy could perform
- Details of the charges that apply
- Details of your investment and its risk
- A statement of the remuneration we receive
- Information about the product, tax and other important points

Next steps

Please read the enclosed documents carefully, in particular the projected benefits, the charges and the important information. If you would like to go ahead, let me know and I will arrange the application with you. The figures in this quotation may change if your circumstances or the contributions change, so please contact me before proceeding if anything is different.

If you have any questions, please contact me on 01 555 0000 or at pat@test.ie.

Yours sincerely,

Pat Adviser

Statement of Suitability

Client	Jordan Byrne	Adviser	Pat Adviser
Date	8 October 2026	Firm	Test Financial Ltd
Product	Allianz Vantage Investment Bond (K1)	Quote ref.	Q-261008-E3TN

Your needs and objectives

You have told us that you wish to invest regular contributions of €500 a month over the medium to long term. The client confirmed this in our meeting.

Your personal and financial circumstances

The client confirmed this in our meeting.

Your attitude to risk

Based on the risk profiling we carried out with you, your attitude to investment risk corresponds to a risk rating of 3 (Low to Medium) on the 1 to 7 Summary Risk Indicator scale. The client confirmed this in our meeting.

Your sustainability preferences

The client confirmed this in our meeting.

Our recommendation

We recommend the Allianz Vantage Investment Bond (K1), with regular contributions of €500 a month, invested in a selection of funds chosen to suit your needs. Based on the weighted average of its funds' published SRIs, this portfolio has an indicative risk rating of about 3 (Low to Medium). This is in line with your attitude to risk.

Why we believe this is suitable for you

- An Investment Bond allows you to invest a lump sum (and, where available, regular contributions) across a range of funds within a single policy.
- The client confirmed this in our meeting.
- The client confirmed this in our meeting.

Sustainability of your fund

At 4.50% growth, your fund is not projected to run out within 40 years. You have not chosen to take an income from this policy, so it is left to grow.

Charges, tax and remuneration

Allowing for all charges, the assumed growth rate of 4.50% is reduced to 3.37% per annum. Exit tax of 38.00% applies, based on a individual policyholder. We will receive initial remuneration of €600, paid by Allianz Global Life from its charges. Full details are set out in the Charges section and the Remuneration Statement in this pack.

Risks you should be aware of

The value of your Investment Bond may go down as well as up and is not guaranteed. Depending on any income or withdrawals you take and investment returns, your fund could run out. The client confirmed this in our meeting.

Alternatives considered

The client confirmed this in our meeting.

I confirm that this Statement of Suitability reflects the advice given to the client.

Adviser: Pat Adviser

Date

I confirm that I have read and understood this Statement of Suitability.

Key warnings

Warning: The value of your investment may go down as well as up.
Warning: If you invest in this product you may lose some or all of the money you invest.
Warning: The income you get from this investment may go down as well as up.
Warning: Past performance is not a reliable guide to future performance.
Warning: This product may be affected by changes in currency exchange rates.

* Indicative portfolio risk is the allocation-weighted average of the published SRIs of the funds (2.8), rounded to the nearest whole number. It is a guide only. It is not an official Summary Risk Indicator, and it does not allow for the effect of diversification between funds. This quotation is for illustration purposes only and does not form part of a contract. Figures are not guaranteed.

Projected benefits

The table below shows how your Investment Bond could perform at the assumed rate of investment growth, allowing for the income you take, all charges and tax. Column F shows the projected value of your policy.

		A	B	C	D	E	F = A + B − C − D − E
Year	Age	Contributions paid	Investment growth to date	Charges to date	Tax to date	Income taken to date	Projected value
1	47	€6,000	€145	€437	€0	€0	**€5,708**
2	48	€12,000	€563	€343	€84	€0	**€12,137**
3	49	€18,000	€1,264	€321	€358	€0	**€18,585**
4	50	€24,000	€2,258	€573	€640	€0	**€25,044**
5	51	€30,000	€3,552	€902	€1,007	€0	**€31,643**
10	56	€60,000	€14,677	€3,728	€4,161	€0	**€66,788**
15	61	€90,000	€34,573	€8,781	€9,801	€0	**€105,991**
20	66	€120,000	€63,577	€16,147	€18,023	€0	**€149,406**
25	71	€150,000	€103,793	€26,361	€29,424	€0	**€198,008**
30	76	€180,000	€155,310	€39,446	€44,028	€0	**€251,836**
35	81	€210,000	€219,853	€55,839	€62,326	€0	**€311,689**
40	86	€240,000	€300,674	€76,365	€85,237	€0	**€379,071**

IMPORTANT

THESE ILLUSTRATIONS ASSUME A RETURN OF 4.50% PER ANNUM. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The deductions for charges shown in column C have the same effect as reducing the assumed investment growth from 4.50% to 3.37%. Column D shows the exit tax that would be due if the policy were fully encashed at that point; no tax is actually deducted unless a chargeable event occurs.

At 4.50% growth, your fund is not projected to run out within 40 years.

You have not chosen to take an income from this policy, so it is left to grow.

This illustration assumes a individual policyholder, with exit tax of 38.00% applying to chargeable events, including the Revenue "deemed disposal" rule which taxes the gain on your policy every 8 years whether or not you make a withdrawal.

Where amounts are withdrawn from your Investment Bond, its value will reduce and could run out, particularly if a high level of income is taken, investment returns are poor or you live a long time.

The charges shown in column C for the early years assume that the policy is fully encashed and an exit charge is incurred. No exit charge applies to the regular, scheduled withdrawals described in this quotation. If the policy is not fully encashed during the exit charge period, no exit charge is payable and the charges actually deducted are lower than shown.

Charges

The charges below are deducted on a monthly basis, either directly from your policy or indirectly from the funds in which it invests.

An annual policy charge of 0.90% and a fund management charge, which varies by fund, apply to your Investment Bond. Where you have chosen the optional rolling guarantee, a guarantee charge also applies. A government levy also applies to every contribution.

Fund	Allocation	Policy charge	Fund charge	Guarantee charge	Total annual charge
Allianz Euro Cash	40.0%	0.90%	0.16%	–	1.06%
Allianz Strategy Select 50	60.0%	0.90%	0.25%	–	1.15%
Your portfolio	**100%**	**0.90%**	**0.21%**	**–**	**1.11%**

Government levy

A government levy of 1.00% applies to every contribution you make, including the single contribution and any regular contributions. This is a tax collected by Allianz Global Life on behalf of the State and is deducted at the time each contribution is invested.

Exit charges

An exit charge applies if you fully encash your Investment Bond in the early years, as shown below. No exit charge applies to the regular, scheduled withdrawals described in this quotation.

Policy year	1	2	3	4+
Exit charge	3.00%	2.00%	1.00%	0.00%

Exit tax

Exit tax of 38.00% applies to this policy, based on a individual policyholder. Tax is due on a chargeable event, including full or partial encashment and the Revenue "deemed disposal" rule, which taxes the gain on your policy every 8 years whether or not you make a withdrawal.

Effect of charges

At 4.50% growth, the total effect of charges is equivalent to reducing the assumed growth rate to 3.37% per annum. This is separate from the effect of exit tax, which is set out above. The Reduction in Yield is higher than the annual charge because it accounts for all fees combined and their compounding effect on your fund over time.

The illustration uses the current level of fund management charges, which may vary in the future. Further details are available in the Schedule of Fees and Charges.

Your investment and risk

Each fund has a published Summary Risk Indicator (SRI) from 1 (lower risk, typically lower rewards) to 7 (higher risk, typically higher rewards). Your own risk rating comes from the risk profiling your adviser carried out with you. To compare the two, we show an indicative risk figure for your portfolio, worked out as the weighted average of its funds' SRIs. Glidepath strategies change their fund mix as you approach retirement, so they are matched to you on their risk profile instead.

Your risk rating: **3 – Low to Medium**
Indicative portfolio risk: **3 – Low to Medium***

The risk of your portfolio is in line with your assessed attitude to risk.

* Indicative portfolio risk is the allocation-weighted average of the published SRIs of the funds (2.8), rounded to the nearest whole number. It is a guide only. It is not an official Summary Risk Indicator, and it does not allow for the effect of diversification between funds.

Your own fund selection

You have chosen your own selection of funds.

Fixed Income & Cash 40.0% Multi-Asset 60.0% Equity 0.0%

Fund	Allocation	Risk (SRI)	Guarantee
Fixed Income & Cash			
Allianz Euro Cash	40.0%	SRI 1	–
Multi-Asset			
Allianz Strategy Select 50	60.0%	SRI 4	–

Allianz Euro Cash. A capital-preservation fund investing in short-term euro money market instruments. Aims to preserve capital and provide returns in line with prevailing short-term interest rates.

Allianz Strategy Select 50. A balanced multi-asset fund with approximately equal allocations to global equities and fixed income. Aims to deliver medium-term capital growth. Optional rolling guarantee available.

Remuneration statement

This statement sets out the remuneration we pay to your financial adviser, Test Financial Ltd, in connection with this policy. This remuneration is paid for by us from the charges we make on your policy; it is not an additional charge.

Type	Basis	Amount
Initial – regular contribution	10.00% of first year's regular contributions	€600
Trail	0.00% a year of fund value	€0 at 4.50% projected total over the life of your Investment Bond

Initial remuneration is a once-off payment made when your policy starts. Trail (ongoing) remuneration is paid each year as a percentage of your fund value, so the amount depends on future investment returns.

Projected remuneration by year

Year	Contributions payable in that year	Projected remuneration at 4.50%
1	€6,000	€600
2	€6,000	€0
3	€6,000	€0
4	€6,000	€0
5	€6,000	€0
10	€6,000	€0
15	€6,000	€0
20	€6,000	€0
25	€6,000	€0
30	€6,000	€0
35	€6,000	€0
40	€6,000	€0

Projected remuneration figures assume the growth rate(s) shown in this quotation and are not guaranteed.

Clawback

Commission clawback applies in full on cool-off (within 30 days of policy inception). An exit charge or clawback schedule may also apply on early encashment, as set out in the Charges section.

The initial remuneration rate shown has been agreed between your adviser and Allianz Global Life and differs from the standard rate for this product.

About the product

- An Investment Bond is a unit-linked investment product designed for medium to long term growth, allowing you to invest a single contribution (and, on some versions, regular contributions) across a range of funds.
- You can choose from non-guaranteed unit-linked funds and, on certain funds, an optional rolling guarantee (GMAB) that protects a percentage of your fund value against falls, for an additional charge.
- The value of your Investment Bond is not guaranteed and will depend on investment performance, the charges that apply and any income or withdrawals you take.
- A government levy applies to every contribution, and exit tax applies on chargeable events, including the Revenue "deemed disposal" rule every 8 years.
- On death, the value of the units in your policy, net of tax, is paid to your estate. Where you have chosen a guaranteed fund, the guaranteed minimum death benefit applies instead.
- You can make ad hoc or regular withdrawals from your policy, subject to minimum amounts and, in some cases, an exit charge.

Tax information

The information below is based on our understanding of current Irish tax law and Revenue practice, which may change. It is a general summary only; your adviser can explain how it applies to your circumstances.

- An Investment Bond is taxed under the "gross roll-up" basis: there is no annual tax on income or gains within the fund, but exit tax is deducted on a chargeable event.
- Exit tax applies at 38% for an individual policyholder, 25% for a corporate policyholder, or 0% for an exempt policyholder, on the gain since the policy began (or since the last chargeable event).
- A chargeable event includes maturity, full or partial surrender, assignment, and the Revenue "deemed disposal" rule, which taxes the gain on your policy every 8 years whether or not you make a withdrawal. Tax already paid at deemed disposal is credited against tax due at a later chargeable event, so the same gain is not taxed twice.
- A government levy of 1% applies to every contribution you make into this policy.
- On death, the tax treatment depends on the chargeable event rules in force at that time.

Important information

Warning: The value of your investment may go down as well as up.

Warning: If you invest in this product you may lose some or all of the money you invest.

Warning: The income you get from this investment may go down as well as up.

Warning: Past performance is not a reliable guide to future performance.

Warning: This product may be affected by changes in currency exchange rates.

This quotation is based on the details provided by your adviser and the assumptions set out in this document. It does not form part of your contract. The terms and conditions of your policy will be set out in your policy documents.

The figures in this quotation are illustrations only and are not guaranteed. The actual value of your policy will depend on the performance of the underlying funds, the contributions paid, the income taken and the charges applied.

You will receive the regulatory disclosure documents required for this product (including a Point of Sale and Point of Issue Disclosure) before or when your policy starts. If there is any difference between this quotation and those documents, the regulatory documents apply.

It is recommended that you seek independent financial advice before making any decision about your retirement savings.

Cooling-off period

You have the right to cancel your policy within 30 days of being informed that it has started. To cancel, write to us at Operations Department, Allianz Global Life, Maple House, Temple Road, Blackrock, Co. Dublin, A94 Y9E8, or email customersupport@allianzgloballife.ie. Any contributions paid will be refunded, less a deduction for any fall in value between the time the money was invested and the time your instruction to cancel is received.

This quotation is based on charges, fund options and assumptions in place on 8 October 2026.

Allianz Global Life dac is regulated by the Central Bank of Ireland. Registered in Dublin, Ireland. Company Reg. No.: 458565.
Directors: Caroline Schwarzer (Chair); Giampaolo Viseri (CEO); Michele Bricchi; Mary Fulton; Robert Scannell; Kai Wallbaum; Rebecca Wysocki.

Glossary

Annual Management Charge (AMC)	A yearly charge, expressed as a percentage of your fund value, for administering your policy.
Annuity	A regular income for life bought with your pension fund at retirement.
Approved Retirement Fund (ARF)	A personal investment fund used to hold pension savings after retirement and draw an income from them.
Clawback	The return of remuneration by the adviser to the provider if the policy is cancelled or transferred within a set period.
Deemed disposal	A Revenue rule that taxes the gain on an Investment Bond every 8 years, whether or not a withdrawal is made.
Deemed distribution	A Revenue rule that treats a minimum percentage of your ARF as withdrawn each year for tax purposes from age 61.
Exit charge	A charge that applies if the policy is fully encashed during the early years.
Exit tax	The tax deducted from an Investment Bond on a chargeable event, at a rate depending on the policyholder type.
Fund Management Charge (FMC)	A yearly charge made by the fund manager, reflected in the price of the fund.
Glidepath	An investment strategy that automatically moves your fund into lower-risk funds as you approach retirement.
Government levy	A 1% tax on life assurance premiums, including contributions to an Investment Bond, collected by the insurer on behalf of the State.
Inflation	The general increase in prices over time, which reduces the buying power of money.
Initial remuneration	A once-off payment to your adviser when your policy starts.
Investment Bond	A unit-linked investment product for medium to long term growth, taxed under the gross roll-up basis.
PRSA	Personal Retirement Savings Account — a flexible personal pension contract.
Reduction in yield	A single figure showing the total effect of all charges on your projected investment return.

Retirement lump sum	The part of your pension fund you can take as a lump sum at retirement, up to Revenue limits.
Rolling guarantee	An optional feature on certain funds that protects a percentage of your fund value, for an additional charge.
Summary Risk Indicator (SRI)	A rating from 1 (lower risk) to 7 (higher risk) showing the level of risk of a fund.
Trail remuneration	An ongoing payment to your adviser, calculated as a percentage of your fund value each year.
Transfer value	The value of benefits moved into your policy from another pension arrangement.
