Re: Your Allianz Vantage ARF (A5) quotation

Dear Mr Murphy,

Thank you for the opportunity to discuss how to invest your retirement fund and draw an income from it. As agreed, please find enclosed your personalised quotation for the Allianz Vantage ARF (A5). Our Statement of Suitability explains why we believe this recommendation is suitable for you.

Enclosed:

- Statement of Suitability, setting out our recommendation and the reasons for it
- A one-page summary of your quotation
- Projected benefits, showing how your policy could perform
- Details of the charges that apply
- Details of your investment and its risk
- A statement of the remuneration we receive
- Important information and a glossary of terms

Next steps

Please read the enclosed documents carefully, in particular the projected benefits, the charges and the important information. If you would like to go ahead, let me know and I will arrange the application with you. The figures in this quotation may change if your circumstances or the contributions change, so please contact me before proceeding if anything is different.

If you have any questions, please contact me on 01 555 0000 or at pat@test.ie.

Yours sincerely,

Pat Adviser
Test Financial Ltd

Statement of Suitability

Client	Alex Murphy	Adviser	Pat Adviser
Date	8 October 2026	Firm	Test Financial Ltd
Product	Allianz Vantage ARF (A5)	Quote ref.	Q-261008-D4A2

Your needs and objectives

You have told us that you wish to invest your retirement savings in an Approved Retirement Fund and draw an income from it, starting from age 67. The client wants to retire with an income of 60% of salary.

Your personal and financial circumstances

The client confirmed this in our meeting.

Your attitude to risk

Based on the risk profiling we carried out with you (Voyant risk questionnaire, 02/10/2026), your attitude to investment risk corresponds to a risk rating of 4 (Medium) on the 1 to 7 Summary Risk Indicator scale. The client confirmed this in our meeting.

Your sustainability preferences

You told us that you do not have sustainability preferences for this investment, so they were not a factor in our recommendation.

Our recommendation

We recommend the Allianz Vantage ARF (A5), with a single contribution of €300,000, invested in a selection of funds chosen to suit your needs. Based on the weighted average of its funds' published SRIs, this portfolio has an indicative risk rating of about 3 (Low to Medium). This is lower than your assessed attitude to risk. We have recommended it because: Client prefers a lower-risk portfolio for income stability.

Why we believe this is suitable for you

- An ARF allows you to keep your retirement savings invested while drawing a flexible income, and to pass any remaining value to your estate.
- The client confirmed this in our meeting.
- The client confirmed this in our meeting.

Sustainability of your income

At 5.00% growth, your fund is projected to run out in year 24 (around age 89), at which point your policy will end. At 3.20% growth, your fund is projected to run out in year 20 (around age 85), at which point your policy will end. You have chosen an initial income of €15,000 per annum, escalating at 2.00% per annum. If this income is lower than the Revenue deemed distribution requirements at any point, this illustration assumes the higher amount is taken.

Charges and remuneration

Allowing for all charges, the assumed growth rate of 5.00% is reduced to 3.14% per annum. We will receive initial remuneration of €12,000 and trail remuneration of 0.25% a year of your fund value, paid by Allianz Global Life from its charges. Full details are set out in the Charges section and the Remuneration Statement in this pack.

Risks you should be aware of

The value of your ARF may go down as well as up and is not guaranteed. Depending on the income you take and investment returns, your fund could run out during your lifetime. The client confirmed this in our meeting.

Alternatives considered

The client confirmed this in our meeting.

I confirm that this Statement of Suitability reflects the advice given to the client.

Adviser: Pat Adviser

Date

I confirm that I have read and understood this Statement of Suitability.

Client: Alex Murphy

YOUR QUOTATION AT A GLANCE

Prepared for Alex Murphy

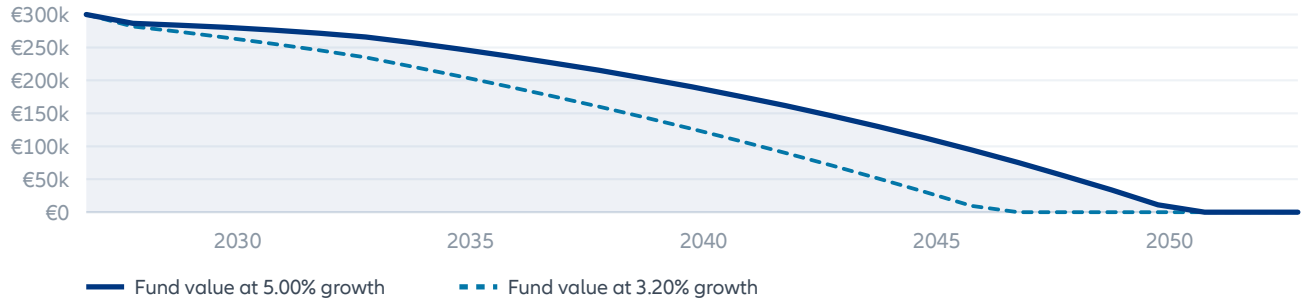

by Pat Adviser, Test Financial Ltd · 8 October 2026

At 5.00% growth, your fund is projected to last

to age 89

At 3.20% growth: to age 85

Start date	**01/10/2026**
Contribution	**€300,000**
Income	**€15,000 a year, increasing 2.00% a year**
Income from age	**67**

Your investment and risk

Your own fund selection. Your risk rating **4 – Medium**.

Indicative portfolio risk: **3 – Low to Medium***

Charges and remuneration

Total annual charge	**1.81%**
Growth after charges	**5.00% → 3.14%**
Initial remuneration	**€12,000**
Trail	**0.25% a year**

Warning: The value of your investment may go down as well as up. **Warning:** If you invest in this product you may lose some or all of the money you invest. **Warning:** The income you get from this investment may go down as well as up. **Warning:** Past performance is not a reliable guide to future performance. **Warning:** This product may be affected by changes in currency exchange rates.

* Indicative portfolio risk is the allocation-weighted average of the published SRIs of the funds (3.2), rounded to the nearest whole number. It is a guide only. It is not an official Summary Risk Indicator, and it does not allow for the effect of diversification between funds. This quotation is for illustration purposes only and does not form part of a contract. Figures are not guaranteed.

Projected benefits

The tables below show how your ARF could perform at two different assumed rates of investment growth, allowing for the income you take and all charges. Column E shows the projected value of your ARF after income.

At 5.00% growth a year

		A	B	C	D	E = A + B – C – D
Year	Age	Contributions paid	Investment growth to date	Charges to date	Income taken to date	Projected value after income
1	67	€300,000	€14,798	€20,594	€7,500	**€286,704**
2	68	€300,000	€29,417	€22,769	€22,800	**€283,848**
3	69	€300,000	€43,724	€24,936	€38,406	**€280,383**
4	70	€300,000	€57,697	€27,099	€54,324	**€276,273**
5	71	€300,000	€71,308	€29,266	€70,561	**€271,481**
10	76	€300,000	€132,951	€49,453	€156,746	**€226,752**
15	81	€300,000	€180,953	€67,308	€251,901	**€161,744**
20	86	€300,000	€210,573	€78,326	€356,961	**€75,287**
24	**90**	**€300,000**	**€217,318**	**€80,835**	**€436,483**	**€0**

IMPORTANT

THESE ILLUSTRATIONS ASSUME A RETURN OF 5.00% PER ANNUM. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The deductions for charges shown in column C have the same effect as reducing the assumed investment growth from 5.00% to 3.14%. The income figures in column D and the policy value figures in column E are shown gross of tax.

At 5.00% growth, your fund is projected to run out in year 24 (around age 89), at which point your policy will end.

At 3.20% growth a year

Year	Age	A Contributions paid	B Investment growth to date	C Charges to date	D Income taken to date	E = A + B – C – D Projected value after income
1	67	€300,000	€9,471	€20,282	€7,500	**€281,688**
2	68	€300,000	€18,658	€22,155	€22,800	**€273,704**
3	69	€300,000	€27,480	€24,030	€38,406	**€265,044**
4	70	€300,000	€35,920	€25,913	€54,324	**€255,682**
5	71	€300,000	€43,964	€27,811	€70,561	**€245,592**
10	76	€300,000	€77,681	€44,757	€156,746	**€176,179**
15	81	€300,000	€98,981	€57,029	€251,901	**€90,051**
20	**86**	**€300,000**	**€105,562**	**€60,821**	**€344,742**	**€0**

IMPORTANT

THESE ILLUSTRATIONS ASSUME A RETURN OF 3.20% PER ANNUM. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The deductions for charges shown in column C have the same effect as reducing the assumed investment growth from 3.20% to 1.36%. The income figures in column D and the policy value figures in column E are shown gross of tax.

At 3.20% growth, your fund is projected to run out in year 20 (around age 85), at which point your policy will end.

You have chosen an initial income of €15,000 per annum, escalating at 2.00% per annum. If this income is lower than the Revenue deemed distribution requirements at any point, this illustration assumes the higher amount is taken.

This illustration assumes that the income you receive will escalate by 2.00% per annum. There is no obligation on you to take income levels that increase in this way.

Where amounts are withdrawn from your ARF, its value will reduce and could run out, particularly if a high level of income is taken, investment returns are poor or you live a long time.

The charges shown in column C for the early years assume that the policy is fully encashed and an exit charge is incurred. No exit charge applies to partial withdrawals or regular income. If the policy is not fully encashed during the exit charge period, no exit charge is payable and the charges actually deducted are lower than shown.

Charges

The charges below are deducted on a monthly basis, either directly from your policy or indirectly from the funds in which it invests.

An annual policy charge of 1.10% and a fund management charge, which varies by fund, apply to your ARF. Where you have chosen the optional rolling guarantee, a guarantee charge also applies.

Fund	Allocation	Policy charge	Fund charge	Guarantee charge	Total annual charge
Allianz Advanced Fixed Income Euro	40.0%	1.10%	0.27%	–	1.37%
Allianz Strategy Select 50	60.0%	1.10%	0.25%	0.75%	2.10%
Your portfolio	**100%**	**1.10%**	**0.26%**	**0.45%**	**1.81%**

Exit charges

An exit charge applies if you fully encash your ARF in the early years, as shown below. No exit charge applies to income payments or partial withdrawals.

Policy year	1	2	3	4	5	6+
Exit charge	5.00%	4.00%	3.00%	2.00%	1.00%	0.00%

Effect of charges

At 5.00% growth, the total effect of charges is equivalent to reducing the assumed growth rate to 3.14% per annum. At 3.20% growth, the total effect of charges is equivalent to reducing the assumed growth rate to 1.36% per annum. The Reduction in Yield is higher than the annual charge because it accounts for all fees combined and their compounding effect on your fund over time.

Where you have chosen the optional guarantee on a fund, the projections assume the guarantee remains in place throughout. If you switch it off in the future, total charges will be lower than shown.

The illustration uses the current level of fund management charges, which may vary in the future. Further details are available in the Schedule of Fees and Charges.

Your investment and risk

Your risk rating
4 – Medium

Indicative portfolio risk*
3 – Low to Medium

Sustainability
100% Article 8

Each fund has a published Summary Risk Indicator (SRI) from 1 (lower risk, typically lower rewards) to 7 (higher risk, typically higher rewards). Your own risk rating comes from the risk profiling your adviser carried out with you. To compare the two, we show an indicative risk figure for your portfolio, worked out as the weighted average of its funds' SRIs. Glidepath strategies change their fund mix as you approach retirement, so they are matched to you on their risk profile instead.

The indicative risk of your portfolio (3) is lower than your assessed attitude to risk (4). Your adviser has recorded the reason for this recommendation: Client prefers a lower-risk portfolio for income stability.

Fund	Category	Risk	SFDR	Fund charge	Allocation
Allianz Advanced Fixed Income Euro	Fixed income	2	Art. 8	0.27%	**40%**
Allianz Strategy Select 50 · **Guarantee**	Multi-asset	4	Art. 8	0.25%	**60%**

Fund category split

Fixed income 40% Multi-asset 60%

Optional Annual Guarantee

The optional rolling guarantee protects a percentage of your fund value against falls in the guaranteed fund, in return for an additional charge. Full terms are set out in the product terms and conditions.

* Indicative portfolio risk is the allocation-weighted average of the published SRIs of the funds (3.2), rounded to the nearest whole number. It is a guide only. It is not an official Summary Risk Indicator, and it does not allow for the effect of diversification between funds.

Your own fund selection

You have chosen your own selection of funds.

Allianz Advanced Fixed Income Euro. A bond fund investing primarily in euro-denominated investment-grade fixed income securities across a range of maturities.

Allianz Strategy Select 50. A balanced multi-asset fund with approximately equal allocations to global equities and fixed income. Aims to deliver medium-term capital growth. Optional rolling guarantee available.

Remuneration statement

This statement sets out the remuneration we pay to your financial adviser, Test Financial Ltd, in connection with this policy. This remuneration is paid for by us from the charges we make on your policy; it is not an additional charge.

Type	Basis	Amount
Initial	4.00% of single contribution	€12,000
Trail	0.25% a year of fund value	€11,094 at 5.00% €8,346 at 3.20% projected total over the life of your ARF

Initial remuneration is a once-off payment made when your policy starts. Trail (ongoing) remuneration is paid each year as a percentage of your fund value, so the amount depends on future investment returns.

Projected remuneration by year

Year	Contributions payable in that year	Projected remuneration at 5.00%	Projected remuneration at 3.20%
1	€300,000	€12,758	€12,751
2	–	€748	€728
3	–	€732	€699
4	–	€715	€668
5	–	€696	€637
10	–	€581	€460
15	–	€423	€249
20	–	€213	€5
25	–	€0	€0

Projected remuneration figures assume the growth rate(s) shown in this quotation and are not guaranteed.

Clawback

Commission clawback applies on cool-off only (within 30 days of policy inception) — no clawback applies on surrender.

Important information

Warning: The value of your investment may go down as well as up.

Warning: If you invest in this product you may lose some or all of the money you invest.

Warning: The income you get from this investment may go down as well as up.

Warning: Past performance is not a reliable guide to future performance.

Warning: This product may be affected by changes in currency exchange rates.

This quotation is based on the details provided by your adviser and the assumptions set out in this document. It does not form part of your contract. The terms and conditions of your policy will be set out in your policy documents.

The figures in this quotation are illustrations only and are not guaranteed. The actual value of your policy will depend on the performance of the underlying funds, the contributions paid, the income taken and the charges applied.

You will receive the regulatory disclosure documents required for this product (including a Point of Sale and Point of Issue Disclosure) before or when your policy starts. If there is any difference between this quotation and those documents, the regulatory documents apply.

It is recommended that you seek independent financial advice before making any decision about your retirement savings.

Cooling-off period

You have the right to cancel your policy within 30 days of being informed that it has started. To cancel, write to us at Operations Department, Allianz Global Life, Maple House, Temple Road, Blackrock, Co. Dublin, A94 Y9E8, or email customersupport@allianzgloballife.ie. Any contributions paid will be refunded, less a deduction for any fall in value between the time the money was invested and the time your instruction to cancel is received.

This quotation is based on charges, fund options and assumptions in place on 8 October 2026.

Allianz Global Life dac is regulated by the Central Bank of Ireland. Registered in Dublin, Ireland. Company Reg. No.: 458565.
Directors: Caroline Schwarzer (Chair); Giampaolo Viseri (CEO); Michele Bricchi; Mary Fulton; Robert Scannell; Kai Wallbaum; Rebecca Wysocki.

Glossary

Annual Management Charge (AMC)	A yearly charge, expressed as a percentage of your fund value, for administering your policy.
Annuity	A regular income for life bought with your pension fund at retirement.
Approved Retirement Fund (ARF)	A personal investment fund used to hold pension savings after retirement and draw an income from them.
Clawback	The return of remuneration by the adviser to the provider if the policy is cancelled or transferred within a set period.
Deemed disposal	A Revenue rule that taxes the gain on an Investment Bond every 8 years, whether or not a withdrawal is made.
Deemed distribution	A Revenue rule that treats a minimum percentage of your ARF as withdrawn each year for tax purposes from age 61.
Exit charge	A charge that applies if the policy is fully encashed during the early years.

Exit tax	The tax deducted from an Investment Bond on a chargeable event, at a rate depending on the policyholder type.
Fund Management Charge (FMC)	A yearly charge made by the fund manager, reflected in the price of the fund.
Glidepath	An investment strategy that automatically moves your fund into lower-risk funds as you approach retirement.
Government levy	A 1% tax on life assurance premiums, including contributions to an Investment Bond, collected by the insurer on behalf of the State.
Inflation	The general increase in prices over time, which reduces the buying power of money.
Initial remuneration	A once-off payment to your adviser when your policy starts.
Investment Bond	A unit-linked investment product for medium to long term growth, taxed under the gross roll-up basis.
PRSA	Personal Retirement Savings Account — a flexible personal pension contract.
Reduction in yield	A single figure showing the total effect of all charges on your projected investment return.
Retirement lump sum	The part of your pension fund you can take as a lump sum at retirement, up to Revenue limits.
Rolling guarantee	An optional feature on certain funds that protects a percentage of your fund value, for an additional charge.
Summary Risk Indicator (SRI)	A rating from 1 (lower risk) to 7 (higher risk) showing the level of risk of a fund.
Trail remuneration	An ongoing payment to your adviser, calculated as a percentage of your fund value each year.
Transfer value	The value of benefits moved into your policy from another pension arrangement.
