Re: Your Allianz Vantage Non-Standard PRSA (A5) quotation

Dear Mr Murphy,

Thank you for the opportunity to discuss your retirement savings. As agreed, please find enclosed your personalised quotation for the Allianz Vantage Non-Standard PRSA (A5). Our Statement of Suitability explains why we believe this recommendation is suitable for you.

Enclosed:

- Statement of Suitability, setting out our recommendation and the reasons for it
- A one-page summary of your quotation
- Projected benefits, showing how your policy could perform
- Details of the charges that apply
- Details of your investment and its risk
- A statement of the remuneration we receive
- Important information and a glossary of terms

Next steps

Please read the enclosed documents carefully, in particular the projected benefits, the charges and the important information. If you would like to go ahead, let me know and I will arrange the application with you. The figures in this quotation may change if your circumstances or the contributions change, so please contact me before proceeding if anything is different.

If you have any questions, please contact me on 01 555 0000 or at pat@test.ie.

Yours sincerely,

Pat Adviser
Test Financial Ltd

Statement of Suitability

Client	Alex Murphy	Adviser	Pat Adviser
Date	8 October 2026	Firm	Test Financial Ltd
Product	Allianz Vantage Non-Standard PRSA (A5)	Quote ref.	Q-261008-YWMZ

Your needs and objectives

You have told us that you wish to save for your retirement and plan to retire at age 65. The client wants to retire with an income of 60% of salary.

Your personal and financial circumstances

The client confirmed this in our meeting.

Your attitude to risk

Based on the risk profiling we carried out with you (Voyant risk questionnaire, 02/10/2026), your attitude to investment risk corresponds to a risk rating of 3 (Low to Medium) on the 1 to 7 Summary Risk Indicator scale. The client confirmed this in our meeting.

Your sustainability preferences

You told us that you have sustainability preferences. All of the recommended funds are classified under Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR), which means they promote environmental or social characteristics.

Our recommendation

We recommend the Allianz Vantage Non-Standard PRSA (A5), with a transfer value of €20,000, a single contribution of €50,000 and regular contributions of €500 a month, invested in the Life Cycle strategy (Opportunity glidepath). This strategy's target risk profile is Opportunity. As a glidepath, its fund mix changes gradually as you approach retirement, so no single SRI is published for it. Based on the weighted average of its funds' SRIs, its indicative risk is about 5 at the start of your plan, reducing to about 4 by your retirement age. This is higher than your assessed attitude to risk. We have recommended it because: The client has a long term to retirement and other cautious assets.

Why we believe this is suitable for you

- A PRSA allows you to save for retirement in a tax-efficient way, with tax relief on contributions within Revenue limits.
- The client confirmed this in our meeting.
- The client confirmed this in our meeting.

Transfer of your existing pension

You are transferring €20,000 from your existing pension arrangement into this PRSA. The client confirmed this in our meeting.

Charges and remuneration

The total effect of the charges on your plan is equivalent to reducing the assumed growth rate by 1.78% per annum. We will receive initial remuneration of €2,950 and trail remuneration of 0.25% a year of your fund value, paid by Allianz Global Life from its charges. Full details are set out in the Charges section and the Remuneration Statement in this pack.

Risks you should be aware of

The value of your PRSA may go down as well as up and is not guaranteed. The benefits you receive will depend on the contributions paid, investment performance, charges and annuity rates at retirement. The client confirmed this in our meeting.

Alternatives considered

The client confirmed this in our meeting.

I confirm that this Statement of Suitability reflects the advice given to the client.

Adviser: Pat Adviser

Date

I confirm that I have read and understood this Statement of Suitability.

Client: Alex Murphy

YOUR QUOTATION AT A GLANCE

Prepared for Alex Murphy

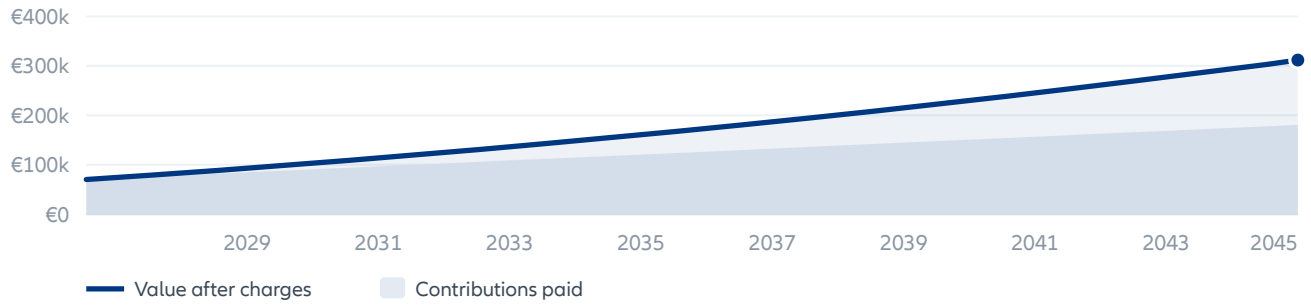

by Pat Adviser, Test Financial Ltd · 8 October 2026

Projected value at age 65, after charges

€311,764

€180,689 in today's money · income approx. €8,336 a year

Start date	**01/10/2026**
Retirement	**Age 65 · 18.5 years**
Transfer	**€20,000**
Single	**€50,000**
Regular	**€500 monthly**

Your investment and risk

Life Cycle (Opportunity glidepath). Your risk rating **3 – Low to Medium**; strategy risk profile **Opportunity**.

Indicative risk about 5 at the start of your plan, reducing to about 4 by your retirement age.*

Charges and remuneration

Total annual charge	**1.60% (initial mix)**
Effect of charges	**1.78% a year**
Initial remuneration	**€2,950**
Trail	**0.25% a year**

Warning: The value of your investment may go down as well as up. **Warning:** If you invest in this product you may lose some or all of the money you invest. **Warning:** The income you get from this investment may go down as well as up. **Warning:** Past performance is not a reliable guide to future performance. **Warning:** This product may be affected by changes in currency exchange rates.

* Indicative risk is the allocation-weighted average of the published SRIs of the funds in the strategy (5.0 at the start of your plan and 4.2 at retirement), rounded to the nearest whole number. It is a guide only and is not an official Summary Risk Indicator. This quotation is for illustration purposes only and does not form part of a contract. Figures are not guaranteed.

Projected benefits

The table below shows how your PRSA could grow up to your chosen retirement age of 65, based on the contributions shown in this quotation. Column D shows the projected value of your PRSA after all charges.

These figures assume your fund grows at the assumed glidepath rate (up to 6.00% per annum at policy start, reducing as retirement approaches). This rate is for illustration purposes only; the benefits payable will depend on the performance of the underlying funds and may be more or less than illustrated.

		A	B	C	D = A + B – C
Year	Age	Contributions paid to date	Investment growth to date (before charges)	Effect of charges to date	Projected value with charges
1	47	€76,000	€4,393	€1,235	**€79,158**
2	48	€82,000	€9,410	€2,698	**€88,712**
3	49	€88,000	€15,088	€4,411	**€98,677**
4	50	€94,000	€21,467	€6,394	**€109,073**
5	51	€100,000	€28,588	€8,671	**€119,916**
10	56	€130,000	€76,991	€26,185	**€180,806**
15	61	€160,000	€150,886	€56,809	**€254,077**
Retirement	**65**	**€181,000**	**€217,705**	**€86,941**	**€311,764**

IMPORTANT

THESE ILLUSTRATIONS ASSUME AN INVESTMENT RETURN BEFORE RETIREMENT OF UP TO 6.00% PER ANNUM (GLIDEPATH, VARYING OVER TIME) AND INFLATION OF 3.00% PER ANNUM. THESE RATES ARE FOR ILLUSTRATION PURPOSES ONLY AND ARE NOT GUARANTEED.

ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING FUNDS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The projections make no allowance for the effect of inflation, which will reduce the value of the projected benefits at retirement. The projected value at retirement of €311,764 is worth €180,689 in terms of today's prices. This could purchase a retirement income of approximately €695 per month (€8,336 per year) in today's prices, assuming income is paid monthly in advance, guaranteed for 5 years and increases by 2.00% each year.

The assumed investment return is an average rate of return over the term of your plan, taking account of the asset mix over time. In practice investment returns will be more variable over the term of the plan.

Where the term to retirement is greater than five years, the annuity rate used is a long-term average rate. Where the term to retirement is less than five years, annuity rates available at retirement may differ from this illustration. Different retirement options, including an Approved Retirement Fund, can be chosen at retirement.

Charges

The charges below are deducted on a monthly basis, either directly from your policy or indirectly from the funds in which it invests.

An Annual Management Charge (AMC) of 1.15% and a Fund Management Charge (FMC), which varies by fund, apply to your PRSA. Where you have chosen a fund guarantee, a guarantee charge also applies.

Fund	Allocation	AMC	Fund charge	Guarantee charge	Total annual charge
Allianz Best Styles Global Equity SRI	100.0%	1.15%	0.45%	–	1.60%
Your portfolio (initial mix)	**100%**	**1.15%**	**0.45%**	**–**	**1.60%**

Your investment strategy is a glidepath: the fund mix shown is the allocation at the start of your plan, and it gradually moves into lower-risk funds as you approach your retirement age.

A contribution charge of 2.00% applies to single contributions below €10,000, and of 2.00% to regular contributions below €100 per month. No contribution charge applies to transfers from other pension arrangements.

- Single contribution of €50,000: no contribution charge
- Regular contribution of €500: no contribution charge
- Transfer value of €20,000: no contribution charge

Effect of charges

For your plan, the total effect of these charges on the projected benefits at retirement is equivalent to a single charge of 1.78% per annum. In other words, charges reduce the assumed growth rate from 5.87% to 4.09%. The Reduction in Yield is higher than the annual charge because it accounts for all fees combined and their compounding effect on your fund over time.

The illustration uses the current level of fund management charges, which may vary in the future. Further details are available in the Schedule of Fees and Charges.

Your investment and risk

Your risk rating	Strategy risk profile	Sustainability
3 – Low to Medium	**Opportunity**	**100% Article 8**

Each fund has a published Summary Risk Indicator (SRI) from 1 (lower risk, typically lower rewards) to 7 (higher risk, typically higher rewards). Your own risk rating comes from the risk profiling your adviser carried out with you. To compare the two, we show an indicative risk figure for your portfolio, worked out as the weighted average of its funds' SRIs. Glidepath strategies change their fund mix as you approach retirement, so they are matched to you on their risk profile instead.

Indicative risk about 5 at the start of your plan, reducing to about 4 by your retirement age.*

This strategy's risk profile (Opportunity) is higher than the profile suited to your assessed attitude to risk (Low to Medium). Your adviser has recorded the reason for this recommendation: The client has a long term to retirement and other cautious assets.

Fund	Category	Risk	SFDR	Fund charge	Allocation
Allianz Best Styles Global Equity SRI	Equity	5	Art. 8	0.45%	**100%**

Fund category split

Equity 100%

* Indicative risk is the allocation-weighted average of the published SRIs of the funds in the strategy (5.0 at the start of your plan and 4.2 at retirement), rounded to the nearest whole number. It is a guide only and is not an official Summary Risk Indicator.

Life Cycle (Opportunity glidepath)

A higher equity weighting aiming for maximum long-term capital growth. Accepts greater short-term volatility in exchange for stronger return potential over a longer investment period.

Your investment strategy is a glidepath: the fund mix shown is the allocation at the start of your plan, and it gradually moves into lower-risk funds as you approach your retirement age.

Allianz Best Styles Global Equity SRI. An actively managed global equity fund combining multiple systematic investment styles (value, quality, momentum) with a responsible investment screen.

Remuneration statement

This statement sets out the remuneration we pay to your financial adviser, Test Financial Ltd, in connection with this policy. This remuneration is paid for by us from the charges we make on your policy; it is not an additional charge.

Type	Basis	Amount
Initial – single contribution	3.50% of single contribution	€1,750
Initial – regular contributions	20.00% of first year's regular contributions	€1,200
Trail	0.25% a year of fund value	€8,239 projected total to retirement
Total projected remuneration		**€11,189**

Initial remuneration is a once-off payment made when your policy starts. Trail (ongoing) remuneration is paid each year as a percentage of your fund value, so the amount depends on future investment returns.

Projected remuneration by year

Year	Contributions payable in that year	Projected remuneration payable in that year
1	€56,000	€3,137
2	€6,000	€211
3	€6,000	€235
4	€6,000	€260
5	€6,000	€287
10	€6,000	€436
15	€6,000	€617
Retirement	**€3,000**	**€385**

Projected remuneration figures assume the growth rate(s) shown in this quotation and are not guaranteed.

Clawback

Commission clawback applies on cool-off or surrender/transfer to another PRSA provider during the first 5 years.

The initial remuneration rate shown has been agreed between your adviser and Allianz Global Life and differs from the standard rate for this product.

Important information

Warning: The value of your investment may go down as well as up.

Warning: If you invest in this product you may lose some or all of the money you invest.

Warning: The income you get from this investment may go down as well as up.

Warning: Past performance is not a reliable guide to future performance.

Warning: This product may be affected by changes in currency exchange rates.

This quotation is based on the details provided by your adviser and the assumptions set out in this document. It does not form part of your contract. The terms and conditions of your policy will be set out in your policy documents.

The figures in this quotation are illustrations only and are not guaranteed. The actual value of your policy will depend on the performance of the underlying funds, the contributions paid, the income taken and the charges applied.

You will receive the regulatory disclosure documents required for this product (including a Preliminary Disclosure Certificate and Statement of Reasonable Projection) before or when your policy starts. If there is any difference between this quotation and those documents, the regulatory documents apply.

It is recommended that you seek independent financial advice before making any decision about your retirement savings.

Cooling-off period

You have the right to cancel your policy within 30 days of being informed that it has started. To cancel, write to us at Operations Department, Allianz Global Life, Maple House, Temple Road, Blackrock, Co. Dublin, A94 Y9E8, or email customersupport@allianzgloballife.ie. Any contributions paid will be refunded, less a deduction for any fall in value between the time the money was invested and the time your instruction to cancel is received.

This quotation is based on charges, fund options and assumptions in place on 8 October 2026.

Allianz Global Life dac is regulated by the Central Bank of Ireland. Registered in Dublin, Ireland. Company Reg. No.: 458565.
Directors: Caroline Schwarzer (Chair); Giampaolo Viseri (CEO); Michele Bricchi; Mary Fulton; Robert Scannell; Kai Wallbaum; Rebecca Wysocki.

Glossary

Annual Management Charge (AMC)	A yearly charge, expressed as a percentage of your fund value, for administering your policy.
Annuity	A regular income for life bought with your pension fund at retirement.
Approved Retirement Fund (ARF)	A personal investment fund used to hold pension savings after retirement and draw an income from them.
Clawback	The return of remuneration by the adviser to the provider if the policy is cancelled or transferred within a set period.
Deemed disposal	A Revenue rule that taxes the gain on an Investment Bond every 8 years, whether or not a withdrawal is made.
Deemed distribution	A Revenue rule that treats a minimum percentage of your ARF as withdrawn each year for tax purposes from age 61.
Exit charge	A charge that applies if the policy is fully encashed during the early years.

Exit tax	The tax deducted from an Investment Bond on a chargeable event, at a rate depending on the policyholder type.
Fund Management Charge (FMC)	A yearly charge made by the fund manager, reflected in the price of the fund.
Glidepath	An investment strategy that automatically moves your fund into lower-risk funds as you approach retirement.
Government levy	A 1% tax on life assurance premiums, including contributions to an Investment Bond, collected by the insurer on behalf of the State.
Inflation	The general increase in prices over time, which reduces the buying power of money.
Initial remuneration	A once-off payment to your adviser when your policy starts.
Investment Bond	A unit-linked investment product for medium to long term growth, taxed under the gross roll-up basis.
PRSA	Personal Retirement Savings Account — a flexible personal pension contract.
Reduction in yield	A single figure showing the total effect of all charges on your projected investment return.
Retirement lump sum	The part of your pension fund you can take as a lump sum at retirement, up to Revenue limits.
Rolling guarantee	An optional feature on certain funds that protects a percentage of your fund value, for an additional charge.
Summary Risk Indicator (SRI)	A rating from 1 (lower risk) to 7 (higher risk) showing the level of risk of a fund.
Trail remuneration	An ongoing payment to your adviser, calculated as a percentage of your fund value each year.
Transfer value	The value of benefits moved into your policy from another pension arrangement.
