Important Notes

- This illustration is for a Single Premium Investment policy whose purpose is to build up an investment fund.
- The above Projected Policy Values are based on assumptions set out on the previous pages.
- The figures for the Projected Policy Values are based on:
  a. the Gross Investment Returns stated. The assumed Gross Investment Returns are not forecasts because, the value of units may grow at a faster or slower rate than assumed and the value of units may be expected to fall from time to time as well as rise;
  b. the continuation of current expense charges.
- The benefit payable on death is the bid value of the units. (Regular encashments will reduce the death benefit and encashment value of the bond).
- On death, encashment, partial encashment, assignment of this policy or on each 8th policy anniversary, tax is normally deducted on the gains made. The rate of taxation is currently 41%.
- A government insurance levy (currently 1%) applies to this policy. Zurich Life will alter your premium or benefits accordingly.
- Please note that this quotation is for illustrative purposes only and is not an offer of contract.
- The terms and conditions of Acceptance are subject to our normal underwriting requirements.
- This illustration must be read in conjunction with the Investment Bond Customer Guide.
- This illustration is valid for 30 days from 07/10/2026.
- Zurich Life Assurance plc is regulated by the Central Bank of Ireland.
