Re: Your Allianz Vantage ARF (A5) quotation

Dear Mr Murphy,

Thank you for the opportunity to discuss how to invest your retirement fund and draw an income from it. As agreed, please find enclosed your personalised quotation for the Allianz Vantage ARF (A5). Our Statement of Suitability explains why we believe this recommendation is suitable for you.

Enclosed:

- Statement of Suitability, setting out our recommendation and the reasons for it
- Your Allianz quotation: a summary, your investment and its risk, projected benefits, charges, the remuneration we receive, and important information

Next steps

Please read the enclosed documents carefully, in particular the projected benefits, the charges and the important information. If you would like to go ahead, let me know and I will arrange the application with you. The figures in this quotation may change if your circumstances or the contributions change, so please contact me before proceeding if anything is different.

If you have any questions, please contact me on 01 555 0000 or at pat@test.ie.

Yours sincerely,

Pat Adviser
Test Financial Ltd

Statement of Suitability

Client	Alex Murphy	Adviser	Pat Adviser
Date	13 October 2026	Firm	Test Financial Ltd
Product	Allianz Vantage ARF (A5)	Quote ref.	Q-261013-4S8B

Your needs and objectives

You have told us that you wish to invest your retirement savings in an Approved Retirement Fund and draw an income from it, starting from age 67. The client wants to retire with an income of 60% of salary.

Your personal and financial circumstances

Other retirement income (e.g. State Pension), assets, liabilities and dependants — discussed on 2 October.

Your attitude to risk

Based on the risk profiling we carried out with you (Voyant risk questionnaire, 02/10/2026), your attitude to investment risk corresponds to a risk rating of 4 (Medium) on the 1 to 7 ESMA risk scale. The client confirmed this in our meeting.

Your sustainability preferences

You told us that you do not have sustainability preferences for this investment, so they were not a factor in our recommendation.

Our recommendation

We recommend the Allianz Vantage ARF (A5), with a single contribution of €300,000, invested in a selection of funds chosen to suit your needs. Based on the weighted average of its funds' published ESMA ratings, this portfolio has an indicative risk rating of about 3 (Low to Medium). This is lower than your assessed attitude to risk. We have recommended it because: Client prefers a lower-risk portfolio for income stability.

Why we believe this is suitable for you

- An ARF allows you to keep your retirement savings invested while drawing a flexible income, and to pass any remaining value to your estate.
- The client confirmed this in our meeting.
- The client confirmed this in our meeting.

Sustainability of your income

At 5.00% growth, your fund is projected to run out in year 24 (around age 90), at which point your policy will end. At 3.20% growth, your fund is projected to run out in year 20 (around age 85), at which point your policy will end. You have chosen an initial income of €15,000 per annum, escalating at 2.00% per annum. If this income is lower than the Revenue deemed distribution requirements at any point, this illustration assumes the higher amount is taken.

Charges and remuneration

Allowing for all charges, the assumed growth rate of 5.00% is reduced to 3.16% per annum. We will receive initial remuneration of €12,000 and trail remuneration of 0.25% a year of your fund value, paid by Allianz Global Life from its charges. Full details are set out in the Charges section and the Remuneration Statement in this pack.

Risks you should be aware of

The value of your ARF may go down as well as up and is not guaranteed. Depending on the income you take and investment returns, your fund could run out during your lifetime. The client confirmed this in our meeting.

Alternatives considered

The client confirmed this in our meeting.

I confirm that this Statement of Suitability reflects the advice given to the client.

Adviser: Pat Adviser

Date

I confirm that I have read and understood this Statement of Suitability.

Your quotation

Your quotation at a glance

A summary of the details this quotation is based on.

YOU

Name	**Mr Alex Murphy**
Date of birth	**10/04/1960 · age 66**
Address	**22 Oak Road, Blackrock, Co. Dublin**
Adviser	**Pat Adviser, Test Financial Ltd**

YOUR PLAN

Product	**Allianz Vantage ARF**
Version	**A5**
Start date	**01/10/2026**
Income from age	**67**

CONTRIBUTIONS

Single contribution	**€300,000**
Income	**Income €15,000 a year, increasing 2.00% a year**
Age at start	**66**

CHARGES

Policy charge	**1.10% a year**
Fund charges, weighted	**0.24% a year**
Guarantee charge, weighted	**0.45% a year**
Contribution charge	**None**
Total annual charge	**1.79% a year**

YOUR INVESTMENT

Fund	Risk	Allocation
Allianz Strategy Select 50 · **with Annual Guarantee**	4	**60%**
Allianz Advanced Fixed Income Short Duration	2	**40%**

Your attitude to risk

4 – Medium

Portfolio risk **3***

1	2	3	**4**	5	6	7

Lower risk — Higher risk

* Allocation-weighted average of the funds' published ESMA ratings (3.2), rounded to the nearest whole number. A guide only, not an official ESMA risk rating.

Allianz Global Life dac is regulated by the Central Bank of Ireland.

Your investment and risk

The funds you have chosen, how your money is split, how its risk compares with your attitude to risk, and what each fund does.

How your money is invested

Fund	Category	Risk	Allocation
Allianz Strategy Select 50 · **Guarantee 90%**	Protected growth	4	**60%**
Allianz Advanced Fixed Income Short Duration	Building block	2	**40%**

How your money is split

Equity 30% Fixed income 70%

Indicative only. Strategy Select funds are counted at the mix of shares and bonds whose return they aim to match, not at what they hold. Actual holdings change over time, for example as the fund manager responds to market volatility.

Risk

Your attitude to risk	Indicative portfolio risk*	Sustainability
4 – Medium	**3 – Low to Medium**	**100% Article 8**

Each fund has a published ESMA risk rating from 1 (lower risk, typically lower rewards) to 7 (higher risk, typically higher rewards). Your own risk rating comes from the risk profiling your adviser carried out with you. To compare the two, we show an indicative risk figure for your portfolio, worked out as the weighted average of its funds' ESMA ratings. Glidepath strategies change their fund mix as you approach retirement, so they are matched to you on their risk profile instead.

The indicative risk of your portfolio (3) is lower than your assessed attitude to risk (4). Your adviser has recorded the reason for this recommendation: Client prefers a lower-risk portfolio for income stability.

Annual Guarantee on Allianz Strategy Select 50

If the value of this fund on a policy anniversary is below 90% of its value at the previous anniversary, we add units to bring it back to 90%. The guarantee applies to this fund only.

* Indicative portfolio risk is the allocation-weighted average of the published ESMA ratings of the funds (3.2), rounded to the nearest whole number. It is a guide only. It is not an official ESMA risk rating, and it does not allow for the effect of diversification between funds.

Allianz Global Life dac is regulated by the Central Bank of Ireland.

About your funds

Allianz Strategy Select 50

Protected Growth — Actively Managed · 60% of your plan

ISIN LU1462180164 · Risk 4 of 7 · Fund charge 0.25% · SFDR Article 8 · **Annual Guarantee 90%**

Invests in international equities and euro bonds, aiming for a return comparable to a mix of 50% international stocks and 50% medium-term euro bonds. A quantitative approach lowers the equity holding when markets are volatile and raises it when they are calmer.

Opportunities

- Steady interest income on bonds, capital gains opportunities on declining interest rates
- High return potential of stocks in the long run
- Broad diversification across numerous securities

Risks

- Interest rates vary, bonds suffer price declines on rising interest rates. The fund unit price may be subject to increased volatility
- High volatility of stocks, losses possible
- Limited participation in the yield potential of single securities

Allianz Advanced Fixed Income Short Duration

Complementary Building Blocks — Actively Managed · 40% of your plan

ISIN LU1328247389 · Risk 2 of 7 · Fund charge 0.22% · SFDR Article 8

Invests mainly in bonds, aiming for an above-average long-term return compared with the European short-duration bond market, and promotes environmental, social and governance criteria. Up to 25% may be held in high-yield bonds (rated B- to BB+), up to 20% in emerging market bonds and up to 20% in investment-grade asset- or mortgage-backed securities. Foreign currency exposure above 10% of the fund is hedged to euro.

Opportunities

- Interest income on bonds, capital gains opportunities on declining interest rates
- Particular price stability of short-term bonds
- Above-average yield potential of corporate, emerging market, and collateralized bonds
- Focus on sustainable investments
- Broad diversification across numerous securities
- Potential additional returns from single security analysis and active management

Risks

- Interest rates vary, bonds suffer price declines on rising interest rates
- Relatively low return potential of short-term bonds
- Addition of corporate, emerging market, and collateralized bonds increases risk of volatility
- Sustainability approach narrows the investment universe
- Limited participation in the potential of individual securities
- Success of single security analysis and active management not guaranteed

Fund descriptions, opportunities and risks are summarised from the Allianz Global Life fund guide. Risk ratings are as at 30/06/2026. For full details, see each fund's factsheet at www.allianzgloballife.ie.

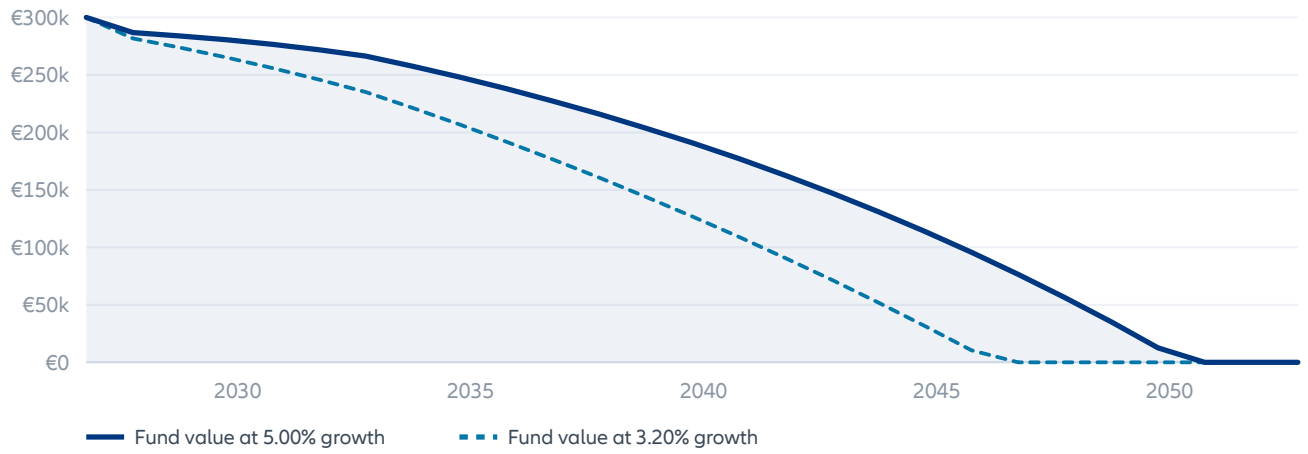

Warning: Past performance is not a reliable guide to future performance.

Warning: This product may be affected by changes in currency exchange rates.

Projected benefits

How your fund could change while you draw an income, based on the assumptions below.

The tables below show how your ARF could perform at two different assumed rates of investment growth, allowing for the income you take and all charges. Column E shows the projected value of your ARF after income.

At 5.00% growth a year

		A	B	C	D	E = A + B – C – D
Year	Age	Contributions paid	Investment growth to date	Charges to date	Income taken to date	Projected value after income
1	67	€300,000	€14,800	€20,537	€7,500	**€286,763**
2	68	€300,000	€29,422	€22,655	€22,800	**€283,967**
3	69	€300,000	€43,738	€24,766	€38,406	**€280,565**
4	70	€300,000	€57,721	€26,876	€54,324	**€276,520**
5	71	€300,000	€71,346	€28,990	€70,561	**€271,795**
10	76	€300,000	€133,105	€48,964	€156,746	**€227,396**
15	81	€300,000	€181,304	€66,694	€251,901	**€162,709**
20	86	€300,000	€211,196	€77,690	€356,961	**€76,545**
24	**90**	**€300,000**	**€218,174**	**€80,257**	**€437,917**	**€0**

IMPORTANT

THESE ILLUSTRATIONS ASSUME A RETURN OF 5.00% PER ANNUM. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The deductions for charges shown in column C have the same effect as reducing the assumed investment growth from 5.00% to 3.16%. The income figures in column D and the policy value figures in column E are shown gross of tax.

At 5.00% growth, your fund is projected to run out in year 24 (around age 90), at which point your policy will end.

At 3.20% growth a year

Year	Age	A Contributions paid	B Investment growth to date	C Charges to date	D Income taken to date	E = A + B – C – D Projected value after income
1	67	€300,000	€9,472	€20,226	€7,500	**€281,746**
2	68	€300,000	€18,662	€22,043	€22,800	**€273,819**
3	69	€300,000	€27,488	€23,865	€38,406	**€265,217**
4	70	€300,000	€35,934	€25,698	€54,324	**€255,912**
5	71	€300,000	€43,986	€27,547	€70,561	**€245,879**
10	76	€300,000	€77,769	€44,312	€156,746	**€176,711**
15	81	€300,000	€99,168	€56,505	€251,901	**€90,761**
20	**86**	**€300,000**	**€105,857**	**€60,317**	**€345,540**	**€0**

IMPORTANT

THESE ILLUSTRATIONS ASSUME A RETURN OF 3.20% PER ANNUM. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The deductions for charges shown in column C have the same effect as reducing the assumed investment growth from 3.20% to 1.38%. The income figures in column D and the policy value figures in column E are shown gross of tax.

At 3.20% growth, your fund is projected to run out in year 20 (around age 85), at which point your policy will end.

You have chosen an initial income of €15,000 per annum, escalating at 2.00% per annum. If this income is lower than the Revenue deemed distribution requirements at any point, this illustration assumes the higher amount is taken.

This illustration assumes that the income you receive will escalate by 2.00% per annum. There is no obligation on you to take income levels that increase in this way.

Where amounts are withdrawn from your ARF, its value will reduce and could run out, particularly if a high level of income is taken, investment returns are poor or you live a long time.

The charges shown in column C for the early years assume that the policy is fully encashed and an exit charge is incurred. No exit charge applies to partial withdrawals or regular income. If the policy is not fully encashed during the exit charge period, no exit charge is payable and the charges actually deducted are lower than shown.

Charges

The charges that apply to your plan. All are yearly and taken from the value of your fund.

Fund	Allocation	Policy charge	Fund charge	Guarantee charge	Total annual charge
Allianz Strategy Select 50	60.0%	1.10%	0.25%	0.75%	2.10%
Allianz Advanced Fixed Income Short Duration	40.0%	1.10%	0.22%	–	1.32%
Your portfolio	**100%**	**1.10%**	**0.24%**	**0.45%**	**1.79%**

Exit charges

An exit charge applies if you fully encash your ARF in the early years, as shown below. No exit charge applies to income payments or partial withdrawals.

Policy year	1	2	3	4	5	6+
Exit charge	5.00%	4.00%	3.00%	2.00%	1.00%	0.00%

Contribution charge	**None**	Transfer charge	**Not applicable**

Annual management charge (AMC)

A yearly charge for setting up, managing and servicing your plan. It depends on the product version and the value of your plan. It includes the trail commission paid to your adviser.

Fund management charge

The yearly cost of each fund, set by the investment manager and shown on the fund's factsheet. It varies by fund.

Guarantee charge

Applies only to funds where you have chosen the Annual Guarantee. It is a percentage of the value of that fund and varies by fund.

Where you have chosen the optional guarantee on a fund, the projections assume the guarantee remains in place throughout. If you switch it off in the future, total charges will be lower than shown.

The illustration uses the current level of fund management charges, which may vary in the future. Further details are available in the Schedule of Fees and Charges.

Warning: If you invest in this product, you may lose some or all of the money you invest.

Remuneration statement

What Allianz Global Life dac pays Test Financial Ltd for arranging this plan. These payments are included in the charges.

Initial commission	Trail commission	Total estimated
€12,000	**0.25% a year**	**€23,138**
paid in year 1	of fund value, est. €11,138 over the life of your plan	over the life of your plan

Type	Basis	Amount
Initial	4.00% of single contribution	€12,000
Trail	0.25% a year of fund value	€11,138 at 5.00% €8,369 at 3.20% projected total over the life of your ARF

Initial remuneration is a once-off payment made when your policy starts. Trail (ongoing) remuneration is paid each year as a percentage of your fund value, so the amount depends on future investment returns.

Projected remuneration by year

Year	Contributions payable in that year	Projected remuneration at 5.00%	Projected remuneration at 3.20%
1	€300,000	€12,758	€12,751
2	–	€748	€728
3	–	€732	€699
4	–	€715	€669
5	–	€697	€638
10	–	€583	€462
15	–	€426	€250
20	–	€216	€6
25	–	€0	€0

Projected remuneration figures assume the growth rate(s) shown in this quotation and are not guaranteed.

Clawback

Commission clawback applies on cool-off only (within 30 days of policy inception) — no clawback applies on surrender.

Important information

Please read this page carefully before you decide.

Warning: The value of your investment may go down as well as up.

Warning: This product may be affected by changes in currency exchange rates.

Warning: If you invest in this product, you may lose some or all of the money you invest.

Warning: Past performance is not a reliable guide to future performance.

Warning: The income you get from this investment may go down as well as up.

This is a quotation, not an offer

Figures are based on the details shown in this quotation and current Revenue rules. Your plan starts only when we accept your application.

Tax

Revenue limits, terms and conditions apply. Tax treatment depends on your individual circumstances and is not guaranteed to continue.

Complaints

Contact us first. If you are not satisfied, you can refer your complaint to the Financial Services and Pensions Ombudsman.

Cooling-off period

You can cancel within 30 days of receiving your policy documents. Single contributions may be returned adjusted for any fall in value.

Policy conditions

This quotation is a summary. If there is any conflict, the policy conditions will prevail.

Not risk free

Allianz Vantage ARF is not a risk-free product. Only the Annual Guarantee, where chosen, provides any protection.

This quotation is based on the details provided by your adviser and the assumptions set out in this document. It does not form part of your contract. The terms and conditions of your policy will be set out in your policy documents.

The figures in this quotation are illustrations only and are not guaranteed. The actual value of your policy will depend on the performance of the underlying funds, the contributions paid, the income taken and the charges applied.

You will receive the regulatory disclosure documents required for this product (including a Point of Sale and Point of Issue Disclosure) before or when your policy starts. If there is any difference between this quotation and those documents, the regulatory documents apply.

It is recommended that you seek independent financial advice before making any decision about your retirement savings.

You have the right to cancel your policy within 30 days of being informed that it has started. To cancel, write to us at Operations Department, Allianz Global Life, Maple House, Temple Road, Blackrock, Co. Dublin, A94 Y9E8, or email customersupport@allianzgloballife.ie. Any contributions paid will be refunded, less a deduction for any fall in value between the time the money was invested and the time your instruction to cancel is received.

Glossary

The terms used in this quotation.

Annual Management Charge (AMC)
A yearly charge, expressed as a percentage of your fund value, for administering your policy.

Approved Retirement Fund (ARF)
A personal investment fund used to hold pension savings after retirement and draw an income from them.

Deemed distribution
A Revenue rule that treats a minimum percentage of your ARF as withdrawn each year for tax purposes from age 61.

Fund Management Charge (FMC)
A yearly charge made by the fund manager, reflected in the price of the fund.

Initial remuneration
A once-off payment to your adviser when your policy starts.

Rolling guarantee
An optional feature on certain funds that protects a percentage of your fund value, for an additional charge.

Trail remuneration
An ongoing payment to your adviser, calculated as a percentage of your fund value each year.

Annuity
A regular income for life bought with your pension fund at retirement.

Clawback
The return of remuneration by the adviser to the provider if the policy is cancelled or transferred within a set period.

Exit charge
A charge that applies if the policy is fully encashed during the early years.

Inflation
The general increase in prices over time, which reduces the buying power of money.

Reduction in yield
A single figure showing the total effect of all charges on your projected investment return.

ESMA risk rating
A rating from 1 (lower risk) to 7 (higher risk) showing the level of risk of a fund.

Transfer value
The value of benefits moved into your policy from another pension arrangement.
