The deductions for charges shown in column C have the same effect as reducing the assumed investment growth from 6.00% to 4.11%. The income figures in column D and the policy value figures in column E are shown gross of tax.

IMPORTANT

THESE ILLUSTRATIONS ASSUME A RETURN OF 3.20% PER ANNUM. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The deductions for charges shown in column C have the same effect as reducing the assumed investment growth from 3.20% to 1.35%. The income figures in column D and the policy value figures in column E are shown gross of tax.

At 3.20% growth, your fund is projected to run out in year 28 (around age 83), at which point your policy will end.

You have chosen an income level in line with the Revenue deemed distribution rules. These are described in the Tax information section. Income is deferred until age 61. Revenue deemed distribution rules apply from age 61 regardless of when withdrawals begin.

This illustration assumes that the income you receive will escalate by 2.00% per annum. There is no obligation on you to take income levels that increase in this way.

Where amounts are withdrawn from your ARF, its value will reduce and could run out, particularly if a high level of income is taken, investment returns are poor or you live a long time.

The charges shown in column C for the early years assume that the policy is fully encashed and an exit charge is incurred. No exit charge applies to partial withdrawals or regular income. If the policy is not fully encashed during the exit charge period, no exit charge is payable and the charges actually deducted are lower than shown.

Charges

The charges that apply to your plan. All are yearly and taken from the value of your fund.

Fund	Allocation	Policy charge	Fund charge	Guarantee charge	Total annual charge
Allianz Dynamic Multi Asset Strategy SRI 75	50.0%	1.10%	0.65%	–	1.75%
Allianz Strategy Select 75	30.0%	1.10%	0.25%	0.85%	2.20%
Allianz Advanced Fixed Income Euro	20.0%	1.10%	0.27%	–	1.37%
Your portfolio	**100%**	**1.10%**	**0.45%**	**0.26%**	**1.81%**

Exit charges

An exit charge applies if you fully encash your ARF in the early years, as shown below. No exit charge applies to income payments or partial withdrawals.

Policy year	1	2	3	4	5	6+
Exit charge	5.00%	4.00%	3.00%	2.00%	1.00%	0.00%

Contribution charge	**None**	Transfer charge	**Not applicable**

Annual management charge (AMC)

A yearly charge for setting up, managing and servicing your plan. It depends on the product version and the value of your plan. It includes the trail commission paid to your adviser.

Fund management charge

The yearly cost of each fund, set by the investment manager and shown on the fund's factsheet. It varies by fund.

Guarantee charge

Applies only to funds where you have chosen the Annual Guarantee. It is a percentage of the value of that fund and varies by fund.

Where you have chosen the optional guarantee on a fund, the projections assume the guarantee remains in place throughout. If you switch it off in the future, total charges will be lower than shown.

The illustration uses the current level of fund management charges, which may vary in the future. Further details are available in the Schedule of Fees and Charges.

Warning: If you invest in this product, you may lose some or all of the money you invest.
