IMPORTANT

THESE ILLUSTRATIONS ASSUME A RETURN OF 5.23% PER ANNUM. THIS RATE IS FOR ILLUSTRATION PURPOSES ONLY AND IS NOT GUARANTEED. ACTUAL INVESTMENT GROWTH WILL DEPEND ON THE PERFORMANCE OF THE UNDERLYING INVESTMENTS AND MAY BE MORE OR LESS THAN ILLUSTRATED.

The deductions for charges shown in column C have the same effect as reducing the assumed investment growth from 5.23% to 2.38%. Column D shows the exit tax that would be due if the policy were fully encashed at that point; no tax is actually deducted unless a chargeable event occurs.

At 5.23% growth, your fund is projected to run out in year 37 (around age 93), at which point your policy will end.

You have chosen an initial income of €3,000 per annum, escalating at 2.00% per annum.

This illustration assumes a individual policyholder, with exit tax of 38.00% applying to chargeable events, including the Revenue "deemed disposal" rule which taxes the gain on your policy every 8 years whether or not you make a withdrawal.

Where amounts are withdrawn from your Investment Bond, its value will reduce and could run out, particularly if a high level of income is taken, investment returns are poor or you live a long time.

Charges

The charges that apply to your plan. All are yearly and taken from the value of your fund.

Fund	Allocation	Policy charge	Fund charge	Guarantee charge	Total annual charge
Allianz Advanced Fixed Income Short Duration	33.4%	1.20%	0.22%	–	1.42%
Allianz Strategy Select 50	33.3%	1.20%	0.25%	0.75%	2.20%
Allianz Dynamic Multi Asset Strategy SRI 50	33.3%	1.20%	0.59%	–	1.79%
Your portfolio	**100%**	**1.20%**	**0.35%**	**0.25%**	**1.80%**

Government levy

A government levy of 1.00% applies to every contribution you make, including the single contribution and any regular contributions. This is a tax collected by Allianz Global Life on behalf of the State and is deducted at the time each contribution is invested.

Exit charges

No exit charges apply to your Investment Bond.

Exit tax

Exit tax of 38.00% applies to this policy, based on a individual policyholder. Tax is due on a chargeable event, including full or partial encashment and the Revenue "deemed disposal" rule, which taxes the gain on your policy every 8 years whether or not you make a withdrawal.

Contribution charge	**None**	Transfer charge	**Not applicable**

Annual management charge (AMC)

A yearly charge for setting up, managing and servicing your plan. It depends on the product version and the value of your plan. It includes the trail commission paid to your adviser.

Fund management charge

The yearly cost of each fund, set by the investment manager and shown on the fund's factsheet. It varies by fund.

Guarantee charge

Applies only to funds where you have chosen the Annual Guarantee. It is a percentage of the value of that fund and varies by fund.

Where you have chosen the optional guarantee on a fund, the projections assume the guarantee remains in place throughout. If you switch it off in the future, total charges will be lower than shown.

The illustration uses the current level of fund management charges, which may vary in the future. Further details are available in the Schedule of Fees and Charges.

Warning: If you invest in this product, you may lose some or all of the money you invest.
